Subject: Interaction with Agency Personnel

Dear Mr. Carter:

Kennecott Environmental Affairs is standardizing its procedure related to plant site visits from regulatory agency personnel.

Due to the number of plant sites at Utah Copper and the numerous construction activities that are ongoing, all outside visitors are being asked to arrive at our Bravo Gate (9600 West 2100 South) and log in with Security. From there, the visitor(s) will be directed to the Environmental Affairs Conference Room for a pre-visit conference prior to going out into the plant site.

This procedure will ensure that each visitor is provided with necessary safety instructions and proper safety equipment. I hope this change does not inconvenience anyone and facilitates each visit.

If you have any questions, please give me a call.

Very truly yours,

Frederick D. Fox
